myAgent - A FILMMAKER'S COLLABORATION APP

Video creator, Motion Graphics Designer, UX Co-designer

myAgent is a filmmaker's collaborative app that lets users, either **filmmakers, talents, crew, or set owners**, create a network of connection using a fully automated system. My responsibilities within the team included the entire creation of this video, and the UX design.

TRUST YOUR PASSION - A DOCUMENTARY

Director, Videographer, Editor, Sound Designer

Trust Your Passion is a documentary film that tells a story of the passion driven career of Chad Smith, a **video game concept artist** by day, and **Wing Chun Kung Fu** master by night in Vancouver. (**Award Winning** and selected by the **Museum of Vancouver** to be a part of the Trust Exhibit)

MAXTREME - A SHORT ACTION COMEDY FILM

Director of Cinematography, Color Grading Artist, Action Choreographer

Maxtreme in itself is a parody of today's blockbuster action films both in the way that it is filmed and its story is written. I was responsible in making this film mimic the visuals of the bigger budget productions by directing how the cinematography was executed and making sure that the colors are compelling and effective.

TROY+OLIVIA & SIMON+TRACY WEDDING HIGHLIGHTS

Videographer, Editor

Although I had been hired for several more recent wedding videography shoots proceeding this one, my first tackle in wedding videography had to be the most significant product that helped me develop a deeper understanding in live event videography. Challenges I had to overcome include: management of batteries, memory cards, team co-ordination, and video editing.
